# SAluJambs™

Full-Height CS AluJambs unit with 1-lite CS NewYorker door

Single with NewYorker

Bi-Parting with AluTec door

Single with NewYorker

# Fre-HungJambs<sup>™</sup>

# SAluJambs™

### Features

**CS AluJambs** is a hinged door system designed to complement the CS AluSealed aluminium cavity slider jamb profiles. They are ideal for a range of applications from residential through to commercial, healthcare and educational.

- Made to order up to 3000mm high.
- Once installed, there are no visible fixings.
- Wool-pile brush seals are fitted to jambs as standard.
- All aluminium components screwed together for strength and reliability.
- Jambs have a grooved profile that suits 90mm stud with 13mm linings.
- Can be pre-finished in a range of colours, powder coated or anodised.
- Supplied ready for installation.
- Suitable for internal or external situations.

## **Technical Information**

#### Useful formulas

Dimension Required	Single	Bi-Parting
Trim height*	DH + 69	DH + 69
Trim width	DW + 85	(DWx2) + 89
Clear walk through	DW - 68	(DWx2) - 94
Distance over jambs (Grvd)	DW + 70	(DWx2) +74
Floor to top of head (Grvd)*	DH + 59	DH + 59
Floor to underside of head*	DH + 28	DH + 28
DH = Door Height DW = Door Width * = All height dimensions allow for under door clearance of 25mm Note: All dimensions are in millimetres
